**Go Green – Join the Quest!**  
**Conservation Quest<sup>SM</sup> at Imagine It! The Children's Museum of Atlanta**  
**July 3 – September 12, 2010**  
**Programming**

Imagine It! The Children's Museum of Atlanta is pleased to present the following original programming to support the Conservation Quest exhibit.

**Operation Green!**

Performed by the Imaginators, our troupe of professional actors and educators

Playwright: Marc Farley, Imaginator; Director: DeWayne Morgan, Imaginator;

Musical Director: Jerry G. White, Imaginator; Music by: Abe White

In this 20-minute mini-musical, Jamie's family uses so much energy that they've created an Energy Vampire. Children become Junior Agents and help Agent Green reduce the power of the Energy Vampire by switching out light bulbs, recycling trash, and exploring renewable energy sources. Children learn that everyone has to do their part to use less energy and keep our planet green.

**¡Cuentos! (Stories!)**

Join us for our reading adventures to wonderful places, with spectacular characters, while speaking Spanish!

**Go Green and Read**

Join the Imaginators for a reading of "Michael Recycle" by Ellie Bethel. Children learn about the adventures of a young superhero whose power allows him to teach people about recycling.

**Invention Convention**

Welcome to Invention Convention! Come and let your imagination run wild as you create something from recyclable things you can find around a house. Build a robot, a car, a skyscraper, or even a dinosaur. If you can imagine it, you can create it!

**Laugh and Learn: Energy Games**

Meet Recycle Rick, Conservation Carl, and Mr. Eco as you learn about conserving energy by playing Recycle Relay, Wheel of Misfortune, and In or Out and On or Off.

**Música y Baile (Music and Dance)**

Take tres steps forward, take dos steps to the right! Children explore música y baile (music and dance) as a way to learn their numbers, colors, and more.

**Recycle Relay**

Children will join the Imaginators and race to the finish line to see who can sort and recycle everything in their trash bin the fastest!
