Cyberchase: The Chase Is On!™
at Imagine It! The Children's Museum of Atlanta
February 13, 2010 – June 6, 2010
Programming

Imagine It! The Children's Museum of Atlanta is pleased to present the following original programming to support the math adventure exhibit **Cyberchase: The Chase Is On!™**

Cyber Clues

Performed daily by the Imaginators, our troupe of actors and educators

Written by: Imaginator DeWayne Morgan

Music by: Spencer Stephens

Directed by: Imaginator Amy Morrow

In this 20-minute mini-musical, Alex and Morgan are trying to get home from visiting their friends in cyberspace, but Dr. No-Laugh has a different plan. When they step out of the travel portal, they find themselves far from home. Dr. No-Laugh leaves them clues along the way and their friends from the audience have to help them figure out what to do. They must use their math and science skills to find their way home.

¡Cuentos! (Stories!)

Join us for our reading adventures to wonderful places, with spectacular characters, while speaking Spanish!

Cyber Story Time

Join the Imaginators for story time with a fun, mathematical reading of "Math Curse" by John Scieszka. Children will learn that they "can think of almost everything as a math problem."

Laugh and Learn: Math Is Everywhere

Join the Imaginators as Señorita Mappy, Cedric Shapeshifter and Open Says-Me as you learn how to navigate a map, solve math word problems, and discover different shapes.

Shapeshifter

Make a circle, make a square, you can find math everywhere! Children join the Imaginators as they create different shapes using everyday things you'd find around house.

Mix and Match Dress Up

Children will use math to mix and match to see how many different outfits they can create. It's dress up with an exciting educational twist.

Música y Baile (Music and Dance)

Take tres steps forward, take dos steps to the right! Children explore música y baile (music and dance) as a way to learn their numbers, colors, and more.

Sci-Fi Musical Chairs

Welcome to the Twilight Zone! Join the Imaginators for a fun-filled game of musical chairs played to classic songs from your favorite science fiction television shows.

So You Think You Can Bingo?

The game of Bingo has a new beat. Spanish numbers will make you move your feet. Come and join the Imaginators for a game of Bingo and numeros, and then dance to the rhythm of Latin music.

Terrific Tangrams

Children will put their problem solving skills to the test as they explore shapes with tangram puzzles. Can you put together a house, a dog, a rabbit or a cat? Use circles, squares and triangles to piece them together and create a tangram to bring home.

Cyberchase: The Chase Is On!™ was created by the Children's Museum of Houston in partnership with THIRTEEN in association with Title Entertainment, Inc and WNET.ORG, with major funding from the National Science Foundation.
